

JIVE GROUP

A fairly new group which was started in September 2011 and although still feeling its way, is certainly good fun and sociable, with lively music to which we try to jive, rock & roll, swing or whatever takes our fancy.

We have a good group of people with mixed abilities, from those who are relatively new to jive, to others who are prepared to show us some of their favourite moves. We just turn up, enjoy the music and have a go at the dancing.

Why not try it for a session or two and see if you like it.

Everyone welcome, with or without partners.
